Patient Positioning and Surgical Site Access
About Allen Medical
Innovative Operative Solutions for Patient Positioning and Surgical Site Access

As an industry leader in patient positioning, our passion is improving patient outcomes and caregiver safety while enhancing our customers’ efficiency. Our inspiration comes from providing innovative solutions to address our customers’ most pressing needs. We immerse ourselves in our customers’ world to better address these needs and the daily challenges of their environment.

Whether developing a product to address patient positioning issues, or creating a system to protect the patient’s skin during a long surgery, we are committed to providing products of exceptional quality.

Spine Surgery Patient Positioning Tailored To Your Needs

Premium Spine Solutions

Allen® Advance Table  See page 9

Allen's premium solution for complex spine surgical procedures. Designed with safety and maximum OR efficiency in mind, the Allen Advance Table offers pin or pinless options (See page 14) for the attachment of the patient platforms. Convenience features include a modern and intuitive user interface, central locking casters and a multi-control pendant. In addition, the Advance Table pin version can be used in conjunction with our new Lateral to Prone (L2P™) Platform (See page 16), which allows for simple and convenient repositioning of the patient from the Lateral to the Prone position without the need to move the patient to a new table.

Adaptive Spine Solutions

Allen Spine System  See page 19

An innovative operating table extension that turns your standard operating table into a table capable of positioning patients for complex spine surgical procedures at a fraction of the price of a stand-alone spine table. It also offers the added advantage of saving space, storing in less than 0.5 sq m (6 sq ft).

Table Attachments

See pages 25 - 31

Allen offers innovative table attachments for spine surgery that are compatible with standard operating tables, Allen Advance Table, Allen Flex Frame, or Mizuho OSI Modular Table System*.

*Compatible with rails that are 3.2 cm (1.25”) wide x 3.8 cm (1.5”) tall with a 36.8 cm (14.5”) space between.
180° Rotation Capabilities
Modern Intuitive User Interface
EZ-Roll, Centrally Locking Castors

Safety Designed In...
Allen® Advance Table

A Premium Solution For Complex Spine Surgical Procedures Designed With Improved Safety Features

The Allen Advance Table is designed with a new safety feature to ensure that if the pin that connects the "H-Bracket" to the table base is accidentally pulled out, the patient support top will not fall to the floor. In addition, this solution offers a modern and intuitive user interface with convenience features such as central locking casters — all at a desirable cost.

- Modern user interface helps the user understand the “state” that the table is currently in e.g. locked, unlocked, tilted, trend or reverse trend
- Central locking castors controlled directly from the pendant
- EZ-Roll castors help the caregiver when transporting the table around the operating theatre
- Numbered H-Brackets help with communication between caregivers when attaching the different tops to the base
- 180° rotation capabilities
- Patient weight capacity: 272 kg (600 lbs)

- Innovative “H-Bracket” design ensures that if the pin connecting the H-Bracket to the table base is accidentally pulled, the patient support top will not fall to the floor
Advance Table Package #A-71001

The Advance Table Standard Package includes everything you need for standard prone and supine spine surgical positioning. The package also includes a convenient rolling accessory cart so you can store your tops, rails, supports, etc. all in one place. If you wish to upgrade your table for special positioning needs, we offer a Premium and a Complete Package with additional accessories included. See page 13

Advance Prone Support Set #A-71300

Included With All Advance Table Packages

The Advance Table Prone Support Set is a comprehensive patient support system for the prone position. Although it was developed with the Allen® Advance Table, this prone support system is also compatible with the Allen Flex Frame and the Mizuho OSI Modular Table System*. The hip pads have been developed in several sizes to help accommodate different patient shapes and sizes. In addition, the chest, hip and thigh support pads are constructed using a patented multi-layer foam construction similar to that of the popular Allen Wingsets, which is designed to aid in reducing sheer pressures on the skin.

What’s Included

- #A-71303 Small Hip Support With Pad 2 Included
- #A-71305 Medium Hip Support With Pad 2 Included
- #A-71307 Large Hip Support With Pad 2 Included

**Specify Rail Type: EU, UK, US. See product page for other part numbers.
Advance Premium Package Upgrade

#A-71002

Upgrade your Advance Table to the Premium Package with the addition of the C-Flex™ Head Positioning System.

The C-Flex Head Positioning System can be used in all types of spine surgery including posterior cervical surgery that utilises skull clamps with pins. The quick-connect coupler makes connecting to a skull clamp easy. Ability to “squeeze and position” supports readjustments intraoperatively. An extensive range of motion makes the C-Flex system ideal for use with extremely kyphotic patients, anterior artificial discs and lateral procedures.

See page 29 for more information on the C-Flex Head Positioning System

Advance Complete Package Upgrade

#A-71003

Upgrade your Advance Table to the Complete Package with the addition of both the C-Flex Head Positioning System and the Allen® Bow™ Frame.

The C-Flex Head Positioning System can be used in all types of spine surgery including posterior cervical surgery that utilises skull clamps with pins. The quick-connect coupler makes connecting to a skull clamp easy. Ability to “squeeze and position” supports readjustments intraoperatively. An extensive range of motion makes the C-Flex system ideal for use with extremely kyphotic patients, anterior artificial discs and lateral procedures.

See page 29 for more information on the C-Flex Head Positioning System

The Bow Frame’s shape creates the desired reverse lordosis needed to open the intervertebral spaces. The Bow Frame enables the patient’s abdomen to hang free during procedures. It is also radiolucent and allows for unrestricted C-arm access. The removable crank is used to adjust the amount of flex and tension in the patient supports.

See page 25 for more information on the Allen Bow Frame
Advance Table H-Brackets: Pin & Pinless Options

Allen now offers pin and pinless options meeting the variation in customer preferences.

Allen® Advance Table With Pin Set-Up

The Advance Standard H-Bracket design ensures that if the pin connecting the H-Bracket to the table base is accidentally pulled, the patient support top will not fall to the floor.

- Numbered H-Brackets help with communication between caregivers when attaching different tops to the base
- Safe & simple pin insertion
- Easily accessible pin storage on column of base

Advance Table Standard H-Bracket

#A-71402

What’s Optional

#A-71404 Cervical Traction Bar
For use with Pin Set-up

#A-71417 Cervical Traction Device
For use with Pin and Pinless Set-up

Allen® Advance Table With Pinless Set-Up

The innovative Pinless H-Bracket design maintains the safety offered in our pin design, but eliminates the extra steps of utilizing the cross-pins for securing the patient support top to the Allen Advance Table base.

The innovative Advance Pinless H-Bracket option combines safety with an easy to use table-to-base attachment system.

- Secure and controlled movement of the patient
- Attachment of patient support tops to base without the use of cross pins
- Backward compatible with all Allen Advance Tables

Advance Table Pinless H-Bracket

#A-71415 Set of 2 Pinless Brackets & 1 Cervical Traction Device

Not compatible with the Advance Table L2P™ Platform.
Advance Table L2P™ Platform  #A-71700

The Advance Table L2P Platform can be used with the Allen® Advance Table® to provide a flexing, lateral surgical patient support platform. The accessories in this set allow a lateral patient to be rotated directly onto the prone supports via the manual rotation capabilities of the Allen Advance Table.*

- Utilise the Allen Advance Table for lateral procedures*
- Create patient flex to open the surgical space
- Single support pad to help reduce shear when flexing
- Integrated air bladder for additional patient flex
- Locks at 90° intervals*
- Works for left or right side lateral approaches
- Eliminates the need to log roll into prone position
- C-arm and O-arm access
- Compatible with standard Advance Rail Top
- Patient Weight Capacity: 181 kg (400 lbs)

*Only compatible with tables with auxiliary power port. For tables without auxiliary power port, please check with your Allen Representative or call Customer Service to confirm compatibility.

Allen® Spine System

An Innovative Table Extension That Turns Your Existing Standard Operating Table Into A Spine Table For Complex Spine Surgical Procedures

The Allen Spine System is an extension for your standard operating table that enables you to perform spine surgery with the positioning benefits of a stand-alone spine table such as the Allen Advance Table. In addition, it offers intraoperative lumbar flex and a small storage footprint. The advanced accessories adjust to fit the individual patient’s anatomy.

- Intraoperative Flex: Use the power of the table to flex and reposition the patient
- Radiolucent Extension 1220 mm x 430 mm (48” x 17”): Provides excellent C-arm and O-arm access
- Optimised Pressure Management: Chest, hip and head supports
- Versatile: Prone, lateral and supine positioning
- Range of Motion: Provides 20° lateral tilt, trend and flex powered by the operating table
- Height: 635 mm - 965 mm (25” - 38”)
- Fits operating tables with outside rail width 510 mm - 610 mm (20” - 24”)
- Patient Weight Capacity: 227 kg (500 lbs)
- Saves Space: Stores in less than 0.5 sq m (6 sq ft) and accessories can be stored on the frame

Lateral Package available See page 21
Spine System Packages

The Allen® Spine System includes everything below. You also have the choice of an appropriate head positioner based on your surgical needs:

- Choose the C-Flex™ Head Positioning System Package #A-70002 if you require an advanced head positioner with simple “squeeze and position” technology that can be used to position the head for all types of spine surgery, including posterior cervical surgeries that require skull clamps and pins.
- Choose the C-Prone Head Positioner Package #A-70000 if you require a standard head positioner that helps position the head quickly and simply for lumbar surgery only.

What’s Included

- #A-70100 Flex Frame 1 Included
- #A-70610 Prone Arm Supports 2 Included
- #A-70400 Supine Top Set 4 Included
- #A-70435, #A-70434* Supine Top Pads 7.6 cm (3”), 5 cm (2”) 4 Included

Optimised
For Pressure Management & Adjustability

Scoliosis
Paediatric Patients
Prone And Lateral Positioning
Wingset Body Positioners #A-70200

Supports That Adjust To Fit The Patient

The wingsets are prone patient supports that have been optimised for pressure management and adjustability. These supports accommodate varying patient anatomies.

- Allows abdomen to hang free
- Designed to reduce compression of brachial plexus
- Offers sternal decompression
- Adjustable for barrel-chested, paediatric and scoliosis patients
- Used with shear-reducing, moisture-absorbent comfort cover disposables
- Multi-layer pad design for optimal pressure management

• Accommodates paediatric to adult patients
• Pads adjust to widths of 254 mm - 457 mm (10” - 18”)
• Fits the Allen® Advance Table
• Fits the Allen Flex Frame
• Fits the Mizuho OSI Modular Table System*
• Patient weight capacity: 227 kg (500 lbs)

Optional Cut-Out Hip Wingset is ideal for larger patients. The Cut-Out Hip Wingset must be used with the Standard Chest Wingset.

What’s Included

| #A-70200 | Standard Wingset System Hip & Chest |
| #A-70203 | Standard Chest Wingset |
| #A-70204 | Chest Wingset With Radiolucent Screws |

Easy To Set-Up
Allen® Bow™ Frame #A-70800

Versatile - Compatible with Standard Operating Tables, Allen Advance Table, Allen Flex Frame Or Mizuho OSI Modular Table System

The Allen Bow Frame is a platform used to perform less complex spine surgeries. The Bow Frame is more versatile than the existing Wilson™ Frame, as the single device attaches to standard operating tables, Allen Advance Table, Allen Flex Frame and the Mizuho OSI Modular Table System*.

Its shape creates the desired reverse lordosis needed to open the intervertebral spaces. The Bow Frame enables the patient’s abdomen to hang free during procedures. It is also radiolucent and allows for unrestricted C-arm access. The removable crank is used to adjust the amount of flex and tension in the patient supports. Every Bow Frame comes with a storage cart. Ideal for use with Laminectomy, Microdisc procedures, Disc procedures, Fusion procedures, Decompressions, and Foraminotomy.

• Fits standard operating tables
• Radiolucent
• Device weight: 12.7 kg (28 lbs)
• Patient supports are adjustable to fit patients of various sizes
• Patient supports adjust laterally up to 19 cm (7.5”) to relieve pressure on the patient’s abdomen
• Patient weight capacity: 227 kg (500 lbs)
• Lightweight for easy set-up
• Compact for easy storage
• Storage cart included for easy transport
• Skin Care Cover disposables are comprised of cosmetic foam

Easy To Set-Up
Works With Standard Wingsets
Proven Pressure Management
Allen® 4-Post System #A-71201, #A-71200

Versatile And Easy To Use: Set Up On Your Standard Operating Table Within Minutes

The Allen 4-Post System is a lightweight, versatile platform that attaches to a standard operating table via short or long attachment straps and allows the surgeon to place patients in a prone or lateral spine position. Lordosis, kyphosis and a neutral position of the lumbar spine is now achievable without the use of a large and expensive specialty platform. The 4-Post System is designed to allow the patient’s abdomen to hang freely, which may help reduce vena caval pressure. This also offers the ability to place an x-ray plate under the patient and provides unrestricted C-arm access.

Ideal for use with Laminectomies, Discectomies, Osteotomies, Fusions, and other prone and lateral procedures.

- Fits standard operating tables
- Radiolucent
- Weighs under 10 lbs (4.5 kg) without the Wingsets
- Patient weight capacity: 227 kg (500 lbs)

- Skin Care Cover disposable made of cosmetic foam
- Compact for storage
- Lightweight and easy to set-up
- Easy to adjust for different size patients

Just Squeeze And Position

Anterior Access

Kyphotic Patients

Precision Adjustments
C-Flex™ Head Positioning System #A-70700

Makes Head Adjustments Easy… Just Squeeze And Position

The modular system can be used in all types of spine surgery. The quick-connect coupler makes connecting to a skull clamp easy. Ability to “squeeze and position” supports readjustments intraoperatively. An extensive range of motion makes the C-Flex system ideal for use with extremely kyphotic patients, anterior artificial discs and lateral procedures.

- Cervical flexion / extension
- Lumbar positioning
- Adjust vertically for kyphotic patients
- Lateral positioning
- Device weight: 9 kg (20 lbs)
- 15.2 cm (6”) lateral adjustment range
- 71 cm (28”) height adjustment range
- 23 cm (9”) extension adjustment range
- +/- 15° lateral tilt

- Works with Standard and Radiolucent Skull Clamps and Headrest Systems from DORO® and Mayfield**
- Includes fold-away mirror
- Easy airway access
- Fits the Allen® Advance Table
- Fits the Allen Flex Frame
- Fits the Mizuho OSI Modular Table System**
- Patient weight capacity: 227 kg (500 lbs)

What’s Included

| #A-70701 | C-Flex Head Positioning System Base Unit | 1 Included |
| #A-70310 | Comfort Mask Disposables | Case of 5 Included |
| #A-70702 | C-Flex Clean Cape Disposables | Case of 10 Included |
| #A-70710 | Starburst Adaptor for Standard Mayfield or DORO* | 1 Included |
| #A-70715 | Prone Mask Head Module | 1 Included |

What’s Optional

| #A-70720 | Flat Plate Head Module | 1 Included |
| #A-70725 | Reverse Starburst Adaptor for Standard Mayfield or DORO* | |
| #A-70730 | Starburst Adaptor for Radiolucent Mayfield* | |
| #A-70735 | Reverse Starburst Adaptor for Radiolucent Mayfield* | |
| #A-70740 | Starburst Adaptor for Radiolucent DORO* | |
| #A-70745 | Reverse Starburst Adaptor for Radiolucent DORO* | |
| #A-70750 | 45° Standard Starburst for Radiolucent Mayfield* | |
| #A-70755 | 45° Standard Starburst for Radiolucent Doro* | |

*Compatible with Mayfield & Doro Standard Skull Clamps, Mayfield Horseshoe Headrest (with Mayfield Conversion Adaptor) and Doro Horseshoe Headrest with a 3⁄16 UNC thread and a 40 tooth hirth joint. Compatible with Radiolucent Mayfield Skull Clamps with a 1⁄2-13 UNC thread and a 40 tooth hirth joint. Compatible with Radiolucent Doro Skull Clamps with a M16 x 2 thread and a 40 tooth hirth joint.

**Compatible with rails that are 3.2 cm (1.25”) wide x 3.8 cm (1.5”) tall with a 36.8 cm (14.5”) space between.
C-Flex™ AP-Vantage System #A-70110, #A-70111

Advanced Table Imaging Capabilities For Your Operating Table

The unique product design eliminates obstructions, leaving nothing but the patient in the shot. C-Flex AP-Vantage System provides for high quality cervical images on an operating table.

The system can be used for both anterior and posterior cervical surgeries; it includes an operating table adaptor (with carbon fibre rails) and the C-Flex head positioning system. All the benefits of the C-Flex system for the operating table with a variety of different head attachments.

Ideal for surgical procedures requiring Odontoid Screws, Cervical Fusion or Artificial Cervical Discs.

• Artifact-Free Imaging
• Squeeze & Position with C-Flex
• Easy Precision Adjustments Intraoperatively
• Added Stability with Optional Leg
• Device Weight: 9 kg (20 lbs)
• Works with Standard and Radiolucent Skull Clamps and Horseshoe Headrest from DORO® and Mayfield™

Package Options Choose One

#A-70110
Includes C-Flex Head Positioning System

A-70750
45° Standard Starburst for Radiolucent Mayfield™

A-70755
45° Standard Starburst for Radiolucent Doro™

*Compatible with Mayfield & Doro Standard Skull Clamps, Mayfield Horseshoe Headrest (with Mayfield Conversion Adaptor) and Doro Horseshoe Headrest with a 3/8-16 UNC thread and a 40 tooth hirth joint. Compatible with Radiolucent Mayfield Skull Clamps with a 1/2-13 UNC thread and a 40 tooth hirth joint. Compatible with Radiolucent Doro Skull Clamps with a M16 x 2 thread and a 40 tooth hirth joint.
Armboard Rail #A-70500-EU

Compatible with the Allen® Advance Table, Allen Flex Frame and the Mizuho OSI Modular Table System*. Length of rail is 15.2 cm (6”). Patient Weight Capacity: 227 kg (500 lbs).

Specify Rail Type

EU  #A-70500-EU
UK  #A-70500-UK
US  #A-70500

Short Accessory Rail #A-70501-EU

Mount accessory rail anywhere on the carbon fiber frame. Rigid mount for attaching any standard rail accessory to a spine frame. Ideal for retractors and arm supports. Compatible with the Allen Advance Table, Allen Flex Frame and the Mizuho OSI Modular Table System*. Length of rail is 15.2 cm (6”). Patient Weight Capacity: 227 kg (500 lbs).

Specify Rail Type

EU  #A-70501-EU
UK  #A-70501-UK
US  #A-70501

Long Accessory Rail #A-70502-EU

Mount accessory rail anywhere on the carbon fiber frame. Double-length mount for attaching multiple accessories to a spine frame. Compatible with the Allen® Advance Table, Allen Flex Frame and the Mizuho OSI Modular Table System*. Length of rail is 43.2 cm (17”). Patient Weight Capacity: 227 kg (500 lbs).

Specify Rail Type

EU  #A-70502-EU
UK  #A-70502-UK
US  #A-70502

*Compatible with rails that are 3.2 cm (1.25”) wide x 3.8 cm (1.5”) tall with a 36.8 cm (14.5”) space between.
**Adjustable Accessory Rail & Clamp**  
*A-71501-EU, #A-71502*

Mount accessory rail anywhere on the carbon fiber frame. Not to be used with arm supports or other accessories. Compatible with the Allen® Advance Table, Allen Flex Frame and the Mizuho OSI Modular Table System*. Length of rail is 15.2 cm (6").

**What’s Included**

- **#A-71502** Clamp for Adjustable Accessory Rail 1 Included
- **#A-71501-EU** Adjustable Accessory Rail 1 Included

Astrus Elite Supine Top Pad #A-70434, #A-70435

Patented pressure management pads for use with the A-70400 Supine Top Set.

#A-70434 30.5 cm x 50.8 cm x 5 cm (12” x 20” x 2”)
#A-70435 30.5 cm x 50.8 cm x 7.6 cm (12” x 20” x 3”)

Allen Medical® Spine
Bow™ Frame Skin Care Covers Kit #A-70810

Skin Care Cover disposables are for use with the Allen® Bow Frame. They are comprised of moisture-absorbing foam and a low shear backing. The covers are used to help protect the Bow Frame pads from fluids and contaminants.

Each set includes foam head support, two arm supports, frame cover, rod support cover and body support covers. (Sold In Cases Of 6 Sets)

Bow Frame Skin Care Covers #A-70810C

Skin Care Cover disposables are for use with the Allen Bow Frame. They are comprised of moisture-absorbing foam and a low shear backing. The covers are used to help protect the Bow Frame pads from fluids and contaminants.

Each set includes frame cover, rod support cover and body support covers. (Sold In Cases Of 6 Sets)

Bow Frame Standard Covers Kit #A-70805

Disposable covers for use with the Allen Bow Frame. These covers are used to help protect the Bow Frame pads from fluids and contaminants.

Each set includes foam head support, two arm supports, frame cover, rod support covers and body support covers. (Sold In Cases Of 6 Sets)
Allen® Advance Ultra Comfort Covers #A-71261, #A-71262, #A-71263

Allen Advance Ultra Comfort Covers are for use with the Allen Advance Prone Support Pads for patients in the prone position. They are comprised of the moisture-absorbing foam with a sheer reducing backing to help alleviate horizontal sheer pressures.

#A-71261  Small (Sold In Cases Of 6 Sets)
#A-71262  Medium (Sold In Cases Of 6 Sets)
#A-71263  Large (Sold In Cases Of 6 Sets)

Comfort Cover Disposables #A-70260

Comfort Covers are for use with wingsets for patients in the prone position. They are comprised of a moisture-absorbing foam with a low shear, Tyvek® backing. (Sold In Cases Of 5 Sets - 4 Pieces Per Set)

Single use.

Allen Foam Head Block #A-70862

Allen Foam Head Blocks are used to support the head in prone procedures. They can be used with the C-Flex™ Head Positioning System, the Allen Foam Block Stand, the Allen Advance Table Head Plate or any flat surface. They are comprised of a supportive bottom foam layer and top layer of much softer foam that is designed to contact the patient's face. (Sold In Cases Of 6)

Single use.
Comfort Mask Disposables #A-70310

Comfort Mask Disposables are for use with C-Prone and C-Flex™ Head Positioning System. It is designed to reduce maceration and shear forces on the skin while cradling the face of patients in the prone position. They are comprised of a cosmetic, moisture-absorbing foam that is soft on the face. (Sold In Cases Of 5)

Single use.

C-Flex™ System Clean Cape Disposables #A-70702

Disposable cover to protect the C-Flex Head Positioning System from fluids and other contaminants. (Sold In Cases Of 10)

Ultrafins™ Stirrups
Supports up to 363 kg (800 lbs)

Flexible Boot

Patient Weight Capacity: 363 kg (800 lbs)

Clamshell Pad Shown
Ultrafins™ Stirrups #O-UFAS

Easily Accommodates Patients With Larger Calves. 363 kg (800 lbs) Patient Weight Capacity.

The Ultrafins Stirrup is an upgrade of the Yellofins™ Stirrup. The reinforced rod and joint assembly and the flexible boot make the system capable of positioning a patient weighing up to 363 kg (800 lbs). Though designed for large patients, the Ultrafins Stirrup is still appropriate for use with the general patient population.

• **Patient Weight Capacity: 363 kg (800 lbs):** Support lithotomy positioning for very large patients

• **Flexible Boot:** Boot comfortably conforms to the calf shape of the patient while providing support
  - The shape and design of the back of boot helps reduce pressure under the popliteal fossa
  - Flexible boot allows these stirrups to be standardised throughout the facility

• **Fin Design:** Covers the fibula head and helps to protect superficial peroneal nerve

• **Floating Boot:** Self-adjusting boot minimises pressure on the calf when moving the stirrup

• **Lift-Assist™ Technology:** Allows easy movement of the leg when placing it in the desired position

• **Ultrafins Clamshell Pad:** Completely encapsulates the foot, ankle and calf for comfortable and secure positioning

• **Squeeze Grip Handle:** Provides easy intraoperative adjustment without compromising the sterile field. Simply release the handle to secure the leg holder in all directions.

• **Lithotomy Range:** Set the stirrup in any position between +84° to –33° lithotomy

• **Abduction Range:** Set the stirrup in any position between +25° to –9° abduction

• **Lithotomy & Length Indicators:** Help ensure precise positioning

Yellofins™ Stirrups
Supports up to 159 kg (350 lbs)

Raise & Abduct

Squeeze & Position
Yellofins™ Stirrups

Simultaneous Lithotomy And Abduction

The Yellofins Stirrup represents the gold standard in lithotomy positioning. Yellofins Stirrups allow for easy adjustment of abduction and lithotomy while maintaining the sterile field. The boot is extended along its lateral side (referred to as a “lateral fin”) and is padded on the interior. The purpose of this fin is to cover and protect the head of the fibula and the peroneal nerve. The Yellofins Stirrup enables safe and easy positioning while providing enhanced surgical site access.

• **Boot Design:** Extended lateral fin is designed to cover and protect the head of the fibula and the peroneal nerve
• **Floating Boot:** Self-adjusting boot minimises pressure on the calf when moving the stirrup
• **Lift-Assist™ Technology:** Allows easy movement of the leg when placing it in the desired position
• **Yellofins Reusable Pad:** Completely encapsulates the foot, ankle and calf for comfortable and secure positioning
• **Squeeze Grip Handle:** Provides easy intraoperative adjustment without compromising the sterile field. Simply release the handle to secure the leg holder in all directions
• **Lithotomy Range:** Yellofins and Yellofins Elite with Lift-Assist technology – Set the stirrup in any position between +84° to –33° lithotomy. Yellofins without Lift-Assist technology – Set the stirrup in any position between +90° to –35° lithotomy.
• **Abduction Range:** Set the stirrup in any position between +25° to –9° abduction
• **Lithotomy & Length Indicators:** Visual indicators that help ensure precise positioning

PAL Pro™ Stirrups
Supports up to 159 kg (350 lbs)

Lift-Assist™ Technology

Lithotomy Range: +90° to −22°

FootHugger™ Boot Pad
PAL Pro™ Stirrups #A-10052

The Power Of Safety And Control At Your Fingertips

The PAL Pro Stirrup is the most feature-rich Allen® stirrup utilising a standard boot. The stirrup allows for easy adjustment of abduction and lithotomy while maintaining the sterile field. The PAL Pro stirrup is differentiated from the Yellofins™ Stirrup by boot design, mechanism cover, the type of hand control and lithotomy indicator.

- **Floating Boot**: Self-adjusting standard boot minimises pressure on the calf when moving the stirrup
- **Lift-Assist™ Technology**: Allows easy movement of the leg when placing it in the desired position
- **Handle**: Provides easy intraoperative adjustment without compromising the sterile field. Simply release the handle to secure the leg holder in all directions.
- **Lithotomy Range**: Set the stirrup in any position between +90° to –22° lithotomy
- **Abduction Range**: Set the stirrup in any position between +25° to –9° abduction
- **Lithotomy & Length Indicators**: Visual indicators help ensure precise positioning
- **Patient Weight Capacity**: 159 kg (350 lbs)

Supports up to 73 kg (160 lbs)

Junior PAL™ Stirrups
Patients ages 7-11 years old.
Supports up to 113 kg (250 lbs)
Junior PAL™ & Little PAL™ Paediatric Stirrups

Effective, Natural Design Fits Paediatric Anatomy

Easy to use, comfortable and secure leg positioning for paediatric patients. Simultaneous abduction and lithotomy adjustments are easily made via a single handle while maintaining the sterile field. Boot is adjusted with a single clamp making positioning simple.

• **Paediatric Boot Design**: Special boot design to fit paediatric anatomy and cradles the paediatric calf, ankle and heel in a natural position
• **Floating Boot**: Self-adjusting standard boot minimises pressure on the calf when moving the stirrup
• **Reusable Clamshell Pad**: Completely encapsulates the foot, ankle and calf to protect, cushion and reduce pressure on these areas
• **Visual Indicators**: Help to ensure precise positioning
• **Lithotomy Range**: Set the stirrup in any position between $+90^\circ$ to $-35^\circ$ lithotomy
• **Abduction Range**: Set the stirrup in any position between $+25^\circ$ to $-9^\circ$ abduction

Cysto-Lift Knee Crutch  #O-CLK

Incorporates our patented stirrup technology allowing for simple and easy positioning of the leg during surgery. No need to access the siderail socket to make leg position changes. One convenient handle controls level of lithotomy and abduction/adduction while maintaining the sterile field. The unique Lift-Assist™ technology neutralises leg weight allowing even the smallest nurse to easily handle individual legs weighing up to 45 kg (100 lbs). Doughy soft pad reduces popliteal pressure. Integral siderail clamp makes attachment to the siderail of any cysto table easier. Boot type stirrups are strongly recommended for longer procedures. Patient Weight Capacity: 159 kg (350 lbs).

Uro Catcher Drapes #O-UC31, #O-UC32

Open mesh filter allows for fast drainage of fluids. The flexible drain hose is compatible with most suction systems for accurate fluid measurement and metering. Velcro® securement eliminates the need to use tape. Durable drape has flexible hose. Length of tubing is 162.5 cm (64”) extended, 50.8 cm (20”) compressed. Tubing diameter is 2.2 cm (7⁄8”).

- #O-UC31 Sterile Drape (Sold In Case Of 10)
- #O-UC32 Non-Sterile Drape (Sold In Case Of 10)

Shoulder Supports #A-63500

Used for procedures requiring the Trendelenburg position. Includes thick foam padding with our flexible cover. Patient Weight Capacity: 227 kg (500 lbs).

Easy On, Easy Off
Flexible Band For Increased Site Access
Fully Disposable

All-In-One System
Easy Catcher™ Disposable System
#O-EC51, #O-EC52

Easy To Use & Fully Disposable Single Use System

The Allen® Easy Catcher is designed to catch and drain fluid during a surgical procedure. It attaches to the side rails of a standard operating table via two integral rail clamps. The Easy Catcher is a single-piece system that contains a fluid drain drape with an integral flexible support band. The band supports the drape vertically for optimal drainage. The support band also flexes to accommodate the doctor’s mid-section during procedures.

The all-in-one system is fully disposable making it more convenient and quicker to set-up and dispose of. In addition, the Easy Catcher has a removable tube adaptor that enables it to connect to a variety of fluid waste management systems.

- All-in-one fluid containment system
- Saves clean-up time
- Fully disposable
- Flexible integrated band
- Easy set-up and removal
- Integral clamps for easy set-up
- Single-piece system includes: buttocks flap, mesh trap, collapsible hose and removable tube adaptor

Ideal for use with a variety of urology and gynecology procedures including Cystoscopy, Ureteroscopy, Urologic Oncology, Pediatric Urology, Calculi (urinary tract stones) and Neurourology.

Safety Vacuum Valve
(Not Sold Separately)

Waterproof Disposable Cover
Ideal For Use With Robotic Procedures

The Allen Hug-U-Vac Steep Trend Positioners safely and comfortably hold patients in the steep Trendelenburg which is common in robotic procedures. The Allen Hug-U-Vac Positioner’s unique pliable design enables it to conform to the patient’s entire supine anatomy to create a larger surface area to cradle the body during steep Trendelenburg. The Hug-U-Vac Positioners have integral quick-release straps that enable it to attach tightly to the rails of standard operating tables. The Large Hug-U-Vac Steep Trend Positioner has been designed with three chambers to accommodate larger patients.

Ideal for use with Gynaecology Procedures, Urology Procedures, Robotic Surgical Procedures, Colorectal Procedures, Cholecystectomies.

- No continuous suction required
- Patient weight capacity: 227 kg (500 lbs)
- Enables secure positioning in robotic procedures
- Designed for easy forearm access to IV lines
- Integral straps secure to standard operating table rails
- Valve location designed for quick access to anesthesia
- Lightweight for easy transport, set-up, and storage
- Durable vacuum valve with on/off switch and lock
- Disposable slipcovers are waterproof for easy clean-up

Allen® Steep Trend Pad

The Simple Solution For Steep Trendelenburg Positioning

The Allen Steep Trend Pad is an easy to use, reliable and disposable solution for Trendelenburg positioning, which is commonly used for robotic procedures. Integrated straps enable it to attach tightly to the rails of standard OR tables, while the comfortable memory foam pad conforms to the patient’s body to help prevent unwanted sliding.

Ideal for use with Gynecology Procedures, Urology Procedures, Robotic Surgical Procedures, Colorectal Procedures, Cholecystectomies.

- Patient weight capacity: 227 kg (500 lbs)
- Enables secure positioning in robotic procedures
- Memory foam pad conforms to anatomy
- Integral straps attach to standard OR table rails
- Drawsheet included to assist in patient movement and can also be used for securing patient’s arms
- Simple to set-up and use
- Fully disposable for easy cleanup
- Maximum Trend: 30°
- Single use

Orthopaedics
Allen® Lift-Assist™ Beach Chair #A-91500

Lightweight With Lift-Assist™ Technology To Make Positioning Easy

The Lift-Assist Beach Chair is designed for use with orthopaedic procedures using the Fowler’s or beach chair position. The chair offers unobstructed access and the Lift-Assist mechanism makes repositioning the patient quick and easy. The Lateral Slide feature enables the surgeon to move the patient closer to the edge of the operating table for increased surgical site access. The Lift-Assist Beach Chair weighs under 13.6 kg (30 lbs) without the back support panels installed.

- Attaches to the rails of standard operating tables
- 227 kg (500 lbs) patient weight capacity
- Lateral adjustment - improved surgical site access
- Lightweight - for single person set-up and removal
- Rail width 50.8 cm - 66 cm (20”- 26”) - fits a wider range of operating tables
- Spring Lock Quick Connect - easy installation and removal of head positioners
- Small rail clamp footprint - frees up accessory rail space needed for different procedures
- No gas spring cables to repair or break
- Removable back panels increases access to surgical site
- Low-cut backboard - excellent maneuverability during total shoulder procedures
- Optional head positioner lock helps support patient’s neck

Universal™ Head Positioner

Adjusts Intraoperatively

Easy To Use Disposable

Single Knob
Releases All Joints
Universal™ Head Positioner  #A-90026

Easy To Use And Protective Head Positioning For The Beach Chair Position On The Operating Theatre Table

The Allen® Universal Head Positioner supports the patient’s head and neck providing adjustability and ease of positioning. Designed for simple set-up and use. It supports the patient’s unique anatomy securely and comfortably and offers more versatility than competitive head supports.* In addition, the disposable straps which support the head and neck are comprised of wide soft protective padding. Straps are designed to distribute force to help reduce the risk of pressure injuries.

Ideal for use with most upper extremity procedures in the beach chair position.

- Multiple straps for secure control of patient’s head and neck
- Single knob releases all joints
- Easy intraoperative adjustments
- Adjustable to help accommodate the patient’s head
- Disposable wide soft straps minimise pressure on skin
- Lightweight and portable
- Simple set-up, easy to use
- Secure head and neck with ability to lock the desired position
- Compatible with all Allen Beach Chairs
- Device Weight (without disposable): 1.5 kg (3.4 lbs)
- Patient Weight Capacity: 227 kg (500 lbs)

Multiple Positions External Rotation & Abduction

Unobstructed Access

Simple & Lightweight

External Rotation & Abduction
Allen® Arm Positioner #A-92000

Spend Your Time On The Procedure, Not The Positioning

The Allen Arm Positioner delivers easy arm positioning for shoulder surgery in the Beach Chair position, as well as elbow and clavicle procedures. By indexing at the elbow, the device is able to gain complete positioning control of the shoulder joint. The revolutionary patent pending design allows the entire device to be steam sterilised and provides an unobstructed access to the surgical site. The device also has the capability of achieving a semi-locked state allowing the surgeon to simply move the arm where he wants it without having to adjust the tension.

Ideal for use with all open and arthroscopic upper limb procedures.

- No foot pedal, no hoses, no hydraulics, no power cords
- The only fully autoclavable arm positioner on the market
- Single knob releases all joints
- Lightweight device weighs only 2.7 kg (6 lbs). No cart required.
- Easy, fluid positioning for enhanced site access
- Connects over the drape, in the sterile field
- Compact and portable for easy storage
- Index at the elbow for complete control
- Quick and easy set-up
- Unobstructed access to the surgical site (no bars or foot pedal obstructions)
- Patient Weight Capacity: 227 kg (500 lbs)

One Boot Accommodates Many
Foot Sizes & Left Or Right Foot

Easy To Use Buckles
**Allen® Traction Boot**

Active Heel™ Technology Provides Superb Security To Prevent Foot Slip

Positioning the leg and foot properly during trauma and hip fracture cases is critical to a less stressful surgery and successful outcome. Many hospitals are still using the original boots that may be decades old and require copious amount of tape to help secure the foot. To mitigate these challenges, Allen has introduced the Allen Traction Boot with Active Heel Technology to help prevent foot slip while providing superb security.

With its modular design, you can upgrade your existing trauma tables to the latest technology that has benefits for the patient, surgeon and operating theatre staff.

Active Heel technology utilises two cushioning pads on the anterior and posterior portions of the leg to provide a secure grip on the entire ankle joint versus the competition which relies on a single point of fixation.

- Active Heel Technology
- Fits size range 37 (EU) 4 (UK) female to 48½ (EU) 13½ (UK) male
- Universal: One boot fits left or right foot
- Easily retrofits your existing Mizuho OSI, Steris®, Maquet® and Schaerer® traction tables
- Eliminate the need for excessive taping
- Patient Weight Capacity: 227 kg (500 lbs)

**Leg Holder Disposable Pads #R-S4133-V**

The Leg Holder Disposable Pad is compatible with all Allen® leg holder systems. These pads utilise two special foam materials which are laminated together. The outer pad is a dense, slightly compressible material which allows for high clamping pressure to stabilise the leg. The inner pad is a soft, fully compressible material for gentle, non-abrasive contact with the skin. The leg pad secures with simple Velcro® fasteners. Length is 95.9 cm (37¾”) and width is 8.6 cm (3¾”). (Sold In Cases Of 12)
Arthroscopic Well-Leg Holder #O-AWLH

Easily and safely position the non-affected leg during arthroscopic knee procedures. Reduce the discomfort and circulatory impairment that can result from the well-leg hanging over the edge of the table. Smooth adjustment and locks securely for precise positioning. Patient Weight Capacity: 227 kg (500 lbs).

Allen Easy Irrigation Tower

*Specify Rail Type: EU, UK, US. See product page for other part numbers.
General
Lift-Assist™ Technology Neutralises Irrigation Bag Weight

Four independently adjustable hooks each safely support up to 10,000cc of fluid. Comfortable, quick-release knobs permit vertical adjustment of hangers from 167.5 cm to 259 cm (5½' to 8½'). This nurse-friendly design makes it easy for personnel to operate.

- **Stable**: Our tower doesn’t require sandbags or special weights to stay up
- **Nearly Effortless**: Lift-Assist technology makes vertical adjustment easy
- **Simple**: Spring design
  NO complicated hydraulics to fail
  NO battery to remember to charge
- **High Capacity**: Holds up to 40,000cc (10,000cc max capacity per hook)
- **User-Friendly**: Easy-to-reach hangers range from 167.5 cm to 259 cm (5½' to 8½')
- **Convenient**: Four independently adjustable hooks
- **Ergonomic**: Comfortable, quick-release knobs

**Lift-Assist Technology**

Unique spring-loaded elliptical knob unlocks when squeezed and locks securely in place when released. The Lift-Assist articulation is done mechanically; there are no hydraulics or batteries to fail.

**Accuracy**

The hanger height is displayed in centimeters and inches for your convenience.
Short, Narrow Board

Patient Transfer Board #A-83005, #A-83000, #A-83001

Roller-Free Roller Board – Better For Patients, Easier On Nurses And Inexpensive

- **Comfortable:** Soft core with no hard metal rollers
- **Lightweight:** No lifting required, even with your heaviest patients
- **No Special Training Requirements:** Uses same or similar transfer technique
- **Fowler’s Position Transfer:** Long board allows for transfer in seated position
- **Foldable:** Long board folds for easy storage and set-up
- **Straps:** Carry this lightweight device on your shoulder and keep your hands free
- **Resilient and Sturdy:** Durable material protects against end cap breakage
- **Patient Weight Capacity:** 227 kg (500 lbs)

- **Easy Lock™ Socket**: The premium clamp - instantly locks into place anywhere on the rail.
- **Autoclavable Clamp**: Designed for use in the sterile field.
- **Easy Lock Blade Clamp**: The premium clamp - instantly locks into place anywhere on the rail.
- **Rail Clamp**: Basic design allows for securement of blade products.
- **Simple Clamp**: Can be sterilised. Simple Clamp can secure over the surgical drape.
- **Universal Clamp**: Can be mounted vertically or horizontally on the operating table rail.
Easy Lock™ Socket #A-40023

Quite Possibly the Easiest Accessory Clamp In The World

No need to look for table notches when attaching the Easy Lock Socket. Attach the clamp anywhere on a standard operating table rail. Accepts any round post up to 1.8 cm (11/16"). Quick and easy pull-to-release lever. Lithotomy wheel for accessory angle adjustments. Patient Weight Capacity: 363 kg (800 lbs).

Specify Rail Type

EU      #A-40023
UK      #A-40024
US      #A-40022

Easy Lock™ Blade Clamp #A-40041

Quite Possibly the Easiest Blade Clamp In The World

No need to look for table notches when attaching the Easy Lock Blade Clamp. Attach the clamp anywhere on a standard operating table rail. Accepts all 2.5 cm x 0.6 cm (1" x 1/4") accessories with flat mounting blades. Quick and easy pull-to-release lever. Patient Weight Capacity: 363 kg (800 lbs).

Specify Rail Type

EU      #A-40041
UK      #A-40042
US      #A-40040
**Autoclavable Clamp #A-92002**

Allen’s™ Autoclavable clamp is fully autoclavable and is designed for use in the sterile field. It can attach to the rail over multiple drapes and accepts accessories with a 1.6 cm (5⁄8”) wide post. The clamp provides 360° rotation for optimal positioning. For use with Allen® Arm Positioner (#A-92000) only. Patient Weight Capacity: 227 kg (500 lbs).

**Universal Clamp #O-RCP2**

Single clamp secures accessories with round and rectangular mounting posts. Accessories can be mounted either vertically or horizontally (e.g. foot extension) with the same clamp. Attach the clamp anywhere on a standard operating table rail between rail standoffs. Accepts 1.6 cm (5⁄8”) round and 2.5 cm x 0.6 cm (1” x ¼”) flat accessories. Not recommended for use with stirrups. Patient Weight Capacity: 159 kg (350 lbs).
Simple Clamp #A-40018

Innovative design allows placement under/over drapes. Durable aluminum and stainless steel construction. Attach the clamp anywhere on a standard operating table rail between rail standoffs. Holds all 1.3 cm to 1.6 cm (1/2" to 5/8") diameter accessories. Patient Weight Capacity: 227 kg (500 lbs).

Specify Rail Type

EU/US #A-40018
UK #A-40018-UK

Rail Clamp #O-RC2XUK

Securely locks accessories with flat mounting blades anywhere along the table side rail. Attaches at standard operating table rail ends or rail notches. Perfect for tabletop extensions and knee/foot board applications. Strong and lightweight replacements for original rail locks. Accessories can be mounted either vertically or horizontally. Reduces the “free play” associated with standard clamps. Accepts 2.5 cm x 0.6 cm (1” x 1/4”) flat accessories. Patient Weight Capacity: 327 kg (720 lbs).

Specify Rail Type

EU/UK #O-RC2XUK
Swiss #O-RCS
US #O-RC2
Accessory Cart #A-30010E

The Accessory Cart provides convenient storage for most of your surgical table accessories. Six rails and a deep bin afford plenty of storing space. Optional accessory hooks allow quick and easy storage. Weighted base makes cart tip-resistant and reduces potential vibration during transport. Polymer base is dent-resistant. Heavy-duty castors roll smoothly. Two castors lock for safe and easy loading, unloading and storage.

What’s Included

What’s Optional

#A-30012
Single Hook
#A-30013
Double Hook

The Accessory Hook allows for faster product storage on our Accessory Cart. Coated prongs help protect stored product from developing scratches. Easy Lock™ design makes attachment and detachment easy.

Specify Rail Type

EU  #A-30010E
UK  #A-30010UK
US  #A-30010

Stirrup Cart #A-30015

A great way to store and protect your investment, this strong and lightweight cart holds and transports your stirrups or legholders. Compact and state-of-the-art, the cart will hold any stirrup from any manufacturer. The sturdy molded four-caster polymer base is dent-resistant. The deep storage bin is a great place to store clamps and pads securely. Two casters lock for safe and easy loading, unloading and storage.

Two different size hooks allow this storage cart to hold a variety of stirrups. Hold up to a 1.9 cm (3⁄4") rod on the smaller hook and up to a 2.5 cm (1") on the larger hook.
Allen® Beach Chair Cart #A-90100E

The perfect companion, the Allen Beach Chair Cart conveniently stores the Allen Beach Chair and all of its accessories. The Beach Chair rests securely on sturdy rails at user height to reduce potential back strain. Optional accessory hooks allow quick and easy storage for larger accessories. Deep bin affords plenty of extra storing space. Weighted base makes cart tip-resistant and reduces potential vibration during transport. Polymer base is dent-resistant. Heavy-duty castors roll smoothly. Two castors lock for safe and easy loading, unloading and storage.

What’s Optional

- **Specify Rail Type**
  - #A-30011E (EU)
  - #A-30011 (US)

- **The Accessory Hook** allows for faster product storage on our Accessory Cart. Coated prongs help protect stored product from developing scratches. Easy Lock™ design makes attachment and detachment easy.

Specify Rail Type

Bow™ Frame Cart #A-70815

The Bow Frame Cart stores all of the accessories used with the frame, including the head positioner and arm supports. The Bow Frame stores securely in the deep bin of the cart. The cart’s weighted base makes it tip-resistant and reduces potential vibration during transport. Polymer base is dent-resistant. Heavy-duty castors roll smoothly. Two castors lock for safe and easier loading, unloading and storage.
Easy Rack #O-MR2E

The Easy Rack will provide convenient storage for your stirrups, armboards, clamps, straps and other table accessories. Constructed with dent-resistant polymer. Specially designed hooks will store stirrups and can be placed onto rack just like they came off the table. No need to readjust to fit on rack. Unique key slots accept 0.6 cm x 2.5 cm (¼" x 1") flat and 1.6 cm (5⁄8") round mounting posts without the need for clamps. Requires appropriate wall fasteners (not included).

Arm Shield #O-AS

Slides under back section pad to protect arms and keep them from falling off table. The radiolucent Arm Shield provides a comfortable safe platform for surgical staff to lean on without harming patient or dislodging IV’s. Soft flexible pad provides comfortable patient cushion reducing risk of pressure related injury. Armboard Pad not included. Dimensions: 40 cm wide by 18 cm high (15 3/4” x 7”). Patient Weight Capacity: 227 kg (500 lbs).

What’s Included

#O-AS Arm Shield 1 Included
#O-AMA53X0.65 Arm Shield Pad 1 Included
Comfort Mat #O-CM

Step Onto Comfort And Feel The Difference

The Comfort Mat is a closed-cell, absorbent-resistant foam which helps reduce fatigue, pain and discomfort associated with standing for long periods of time. The beveled, low profile edges facilitate easy access to the surface. The surface measures 51 cm x 84 cm (20” x 33”) but is also available in custom sizes. This non-slip surface is chemical resistant. Custom mats are priced per square inch.

Needle Triever™ Device #A-75000

Help protect your staff from sharps injuries with the Allen® Needle Triever. This suture needle retrieval system has a large magnetic surface to easily pick up any ferrous needles and sharps as small as .15 mm (.006”) diameter. Our unique design allows this magnetic sweeper to reach under the surgical table and other hard-to-reach places. The lightweight aluminum is easy to use and store. The long handle, more than 1 meter (3 feet), means you don’t need to bend over to find lost sharps.

Flexible Anesthesia Screen #O-FAS

This malleable screen conforms to any shape you desire. The plastic encased metal link construction remains stable as shaped. Has 1.6 cm (5⁄8”) post.

Security Straps #O-PRSLH, #O-RSX2

Loops around the side rail for simple table attachment and adjusts easily with buckles. Patient Weight Capacity: 227 kg (500 lbs).

#O-PRSLH  Medium Security Strap (without hooks)

- Soft padded center section is 1.2 cm (½”) thick, 12.7 cm (5”) wide, 46 cm (18”) long.
- Strap is adjustable from 46 cm - 114 cm (18” - 45”)

#O-RSX2  Large Security Strap (without hooks)

- Soft padded center section is 1.2 cm (½”) thick, 15.2 cm (6”) wide, 61 cm (24”) long.
- Strap is adjustable from 61 cm - 203 cm (24” - 80”)

What’s Optional

#O-PRSH Hooks

Portable and Easy to Use. No Clamps Required.
Secure patients from sliding during steep reverse Trendelenburg procedures such as Nissen Fundoplication. Conductive straps encircle each upper thigh with a broad soft pad. Airplane style buckle permits convenient length adjustment. Pad is 11.4 cm (4.5”) wide and 51 cm (20”) long. Straps are adjustable up to 122 cm (48”). Patient Weight Capacity: 227 kg (500 lbs). (Sold In Pairs)

**Nissen Thigh Straps #O-NTSE**

Secure patients from sliding during steep reverse Trendelenburg procedures such as Nissen Fundoplication. Conductive straps encircle each upper thigh with a broad soft pad. Airplane style buckle permits convenient length adjustment. Pad is 11.4 cm (4.5”) wide and 51 cm (20”) long. Straps are adjustable up to 122 cm (48”). Patient Weight Capacity: 227 kg (500 lbs). (Sold In Pairs)

**Bariatric Nissen Thigh Straps #A-80400E**

Bariatric Nissen Thigh Straps offer the support larger patients need during steep reverse Trendelenburg positioning. The pad is wide and long to offer comfortable support. Integral clamps attach to rail securely. Patient Weight Capacity: 454 kg (1,000 lbs).

- Pad is 18 cm (7”) wide and 79 cm (31”) long
- Straps are adjustable in usable-length up to 179 cm (70”)

**Table Width Extender 10 cm (4”) #O-TWEE**

Increases the support surface for larger patients. Clips easily with integral locking mechanism to the rail. Can be used individually or in multiples to create a custom platform. Support surface measures 10 cm x 51 cm (4” x 20”). Includes side rail for mounting stirrup clamps, armboards and other accessories. Call Sales Dept. for replacement pad info. Patient Weight Capacity: 181 kg (400 lbs).

Warranty Information

Allen products shall be free from defects in material and workmanship for a period two (2) years. There are exceptions to this as defined by the product groups or types as detailed below. Exceptions to the two (2) year warranty carry a one (1) Year Warranty as follows:

- Allen® Advance Table
- Advance Table L2P™ Platform
- Allen Hug-U-Vac™
- Pad products inclusive of the following:
  - Gel Pads, Vacu-Gel™, Vacu-Form™
- Foam Positioners

Warranty does not cover misuse, abuse, neglect, or lack of routine maintenance. In order for an item to be eligible for warranty, the serial or lot number must be on the product. Contact Customer Service or your Allen Representative for additional warranty information.

Products Are Not Made With Natural Rubber Latex
Product Serial Number Information

Allen Medical Systems’ equipment (hard goods) is serialised and includes a serial number label. There are two types of labels (white or silver). Both contain six digits which may be preceded with a letter.

Type 1

Type 2

All Sterile and most non-sterile disposable products contain a lot number on the outside package/box.

Surfaces and Pads have a letter/digit date code on the label that is attached to the underside of the pad.

In order for an item to be eligible for warranty, the serial or lot number must be on the product.
Find Innovative Patient Positioning Products For Surgery

- Clean, modern design for enhanced experience
- Responsive design that is optimised for tablets & smart phones
- Simplified navigation of pages and products
- Improved search field and functionality
- One-stop resources section for catalogues, brochures & videos
- Request a demo or quote for any product with ease
Hill-Rom is a leading global medical technology company with more than 10,000 employees worldwide. We partner with health care providers in more than 100 countries, across all care settings, by focusing on patient care solutions that improve clinical and economic outcomes in five core areas: Advancing Mobility, Wound Care and Prevention, Patient Monitoring and Diagnostics, Surgical Safety and Efficiency and Respiratory Health. Hill-Rom’s people, products and programs work towards one mission: Every day, around the world, we enhance outcomes for patients and their caregivers.
